EDUCATION:

Master of Engineering in Telecommunications

INSA: National Institute of
Applied Sciences, Lyon, France
Graduated September 2025

Exchange – Master of Computer Science

Pontifical Catholic University of
Rio de Janeiro, Brasil
July 2024 – March 2025

ACHIEVEMENTS:

Played for U16 National Norway's
Team Rugby

ANSSI MOOC on Cybersecurity

Hackathon SPIE 1st Place

Aeronautics Initiation Licence

Certification Linguaskill

Presented my paper APVP 24

CYBER (CTF, CERTIF):

RootMe CTF (2000+ points)

Ethical Hacker certified by Cisco

Cyber Game 2024 & 2025

NullVastation 2025 (6/6 tasks)

Cyshock – The Awakening 2025

LANGUAGES:

English (Fluent)

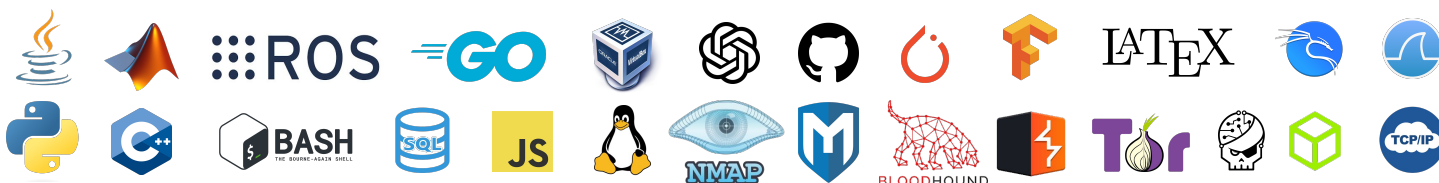

French (Native)

Portuguese (Beginner)

Japanese (Beginner)

Sign Language LSF (Beginner)

SKILLS:

PROFILE:

INSA Lyon M.Eng. (Telecom – Cybersecurity & Networks), graduating Sept 2025. Currently in Offensive Security at Akvize. I combine delivery (audits), internal tooling (R&D automation), and continuous hands-on practice.

EXPERIENCE:

Permanent Contract – Offensive Cybersecurity

Oct 2025 – Now

Akvize, Paris – France

- Deliver security, IT and architecture assessments for multiple customers (varied industries), covering governance, cloud/on-prem infrastructure, network exposure, and application security.
- Develop internal R&D tooling (Python/Go) to automate data collection, exposure analysis and reporting, improving audit throughput and consistency.

Final Year Internship – Offensive Cybersecurity

March 2025 – Sep 2025

Akvize, Paris – France

- Designed a commercial-grade cyber audit solution (Python/Go), automating key steps of the penetration testing process, complemented by in-depth manual analysis.
- Key skills:** Pentesting, Nmap, Nessus, Metasploit, Kali Linux, BloodHound, PingCastle, Mimikatz, BurpSuite, Nuclei, etc.

Research Assistant

Sep 2024 – Dec 2024

CETUC LAB, Rio de Janeiro – Brasil

- Focusing on "Spoofing attack on MIMO systems in robotic networks" – Tasked with simulating the efficiency of spoofing attacks against MIMO communication system in a robot fleet.
- Key skills:** ROS programming, Matlab, Python, Spoofing Attack, MIMO.

Internship – Research Assistant

July 2023 – July 2024

LIRIS Laboratory, DRIM Team, Lyon – France

- Focusing on "Privacy-preserving decentralized learning" I was tasked with analyzing the efficiency of existing privacy attacks against decentralized machine learning with dynamic topologies. **Issued Paper:** *Scrutinizing the Vulnerability of Decentralized Learning to Membership Inference Attacks*
- Key skills:** Distributed Systems, AI Accelerator (e.g. GPU), AI frameworks (e.g. PyTorch, TensorFlow), Gradient Inversion, MIA attack)

Technical Intern

February 2019 – April 2019

XMCO, Paris – France

- Professional immersion in a cybersecurity consultancy firm where I practiced Penetration audit on a sandbox.
- Key skills:** SQL Injection, Broken Authentication, Broken Session Management, Cross-Site Scripting (XSS), Local File Inclusion, Unrestricted File Upload, Fuzzer
